DETAILED ACTION

Claim Rejections - 35 USC § 112

Claim 10 is rejected under 35 U.S.C. 112, fourth paragraph, for failing to further limit the apparatus of claims 1, 2, or 6.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 1-3, 6-10 are rejected under 35 U.S.C. 102(e) as being anticipated by Otsuki.

Considering claim 1, Otsuki discloses all claimed subject matter:

the claimed "means for displaying to discriminate a time zone..." is met by fig. 2, item 4, or fig. 9, item 8.

Regarding claim 2, the claimed "means for displaying to discriminate a time zone in which purchased program is present...and a time zone...is not present" is met by fig. 2, item 4, or fig. 5.

As per claim 3, the claimed "means for displaying in different colors a program guide belonging to a time zone...purchased program is present and a time zone... is not present..." is

Art Unit: 2779

inherently met by fig. 2, item 4, or fig. 9, item 8, since "program2" is distinguished among the other programs and could be of different colors upon the cursor movement.

In claim 6, the claimed "setting means for allowing an arbitrary time zone" is met by fig. 2, items 5 and 6; and

the claimed "discriminatingly displaying means... time zone.." is met by fig. 2, item 4.

Re claim 7, the claimed "discriminatingly displaying means causes a region corresponding to the time zone..." is inherently met by fig. 2, item 4, or fig. 8.

In claims 8, and 9 the claimed "setting means allows the starting time and end time..." and the claimed "set for each day of the week by the user" are inherently disclosed in Otsuki's disclosure.

Claim 10 is rejected for the similar reasons as claim 1.

Allowable Subject Matter

3. Claims 4-5 are allowable over the art, because the prior art do not show the combination of a program-guide-display control apparatus that display the means to discriminate if a time zone in which a purchase program is present and a time zone in which the purchased program is not present so as to ensure that two or more PPV programs^{which} are broadcasted during the same time zone happen to be purchased are difficult to occur.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lopresti (5889506) and Klosterman (5940073) are some of the patents pertinent to applicant's disclosure.
